1. Who will win the race?
2. What's your prediction?

Name _____

Back to School!

It was the first day of school! Khalid's class was putting away their school supplies. Some of their supplies went into their desks, while other supplies were collected for the whole class to share.

- There were 3 more bottles of glue than packs of paper.
- There were 2 fewer packs of pencils than bottles of glue.
- There were more than 5 boxes of tissues.

How many of each school supply did the class bring?

How many of these supplies did they bring in all?

Don't forget to show your work.

Name _____

Down on the Farm

Millie was visiting her grandparents on their farm.

- She fed the cows at least 10 times.
- She rode horses more than she collected the eggs or fed the cows.
- She played with the goats more than anything else.

How many of each activity did she do?

How many activities did she do in all?

Don't forget to show your work.

Name _____

Once Upon a Time...

Jorge and Sally were writing a story about insects together.

- Their story had 6 more ladybugs than butterflies.
- Most of the insects in the story were ants.
- There were 4 fewer grasshoppers than ants.
- There were more grasshoppers than ladybugs.

How many ants were in their story?

Don't forget to show your work.
